Summary

As a computer science graduate with a passion for creating innovative and user-friendly web applications, I have acquired multiple certifications in responsive web design, scientific computing with Python, and Python object-oriented programming. I have also developed my skills in C++, SQL, and Unity Technologies, which I have applied to various projects and challenges. I am eager to learn from and collaborate with experienced professionals in the field, and to contribute to the development of cutting-edge solutions that can make a positive impact on the world. My goal is to pursue a career as a Python developer, where I can leverage my technical abilities, creative thinking, and problem-solving skills to deliver high-quality products and services.
